SUMMARY

UX Engineer with **1 year of experience**, **Google UX Certification**, and a **full-stack** background. I bridge **design** and **development**—using **Figma** for design and **HTML**, **CSS**, **React**, **Next.js**, **TypeScript** and **Prisma** to turn complex needs into intuitive, high-impact interfaces.

WORK EXPERIENCE

UX Engineer

Gaahleri, Ningbo, China — *Aug 2025 – Present*

- Lead end-to-end **UX design** for the company's **e-commerce** platform and **color lab website**—from **user research** and **wireframing** to **high-fidelity prototypes** and **usability testing**.
- Translate design deliverables into production-ready code using **Next.js**, **TypeScript**, and **Tailwind CSS**, ensuring **pixel-perfect implementation**.
- Build and maintain a scalable **design system** and **reusable component library** that accelerates feature delivery across teams.
- **Collaborate closely with product managers and back-end engineers** to align user needs with business goals and technical constraints.

Customer Experience Team Member

ATG Entertainment, London, UK — *Oct 2023 – Jul 2025*

- Engaged directly with a **diverse customer** base, developing deep **empathy for user pain points** and expectations across multiple touchpoints.
- **Analysed customer feedback data**, **presenting actionable insights to the product team** that informed feature prioritisation.
- **Collaborated in a 50-member international team using English** to coordinate daily operations and ensure seamless cross-cultural communication.

EDUCATION

MS Information Technology — Sep 2025 – Present
GPA: 4.0/4.0 — *University of the People , Remote*

MA Gender, Society and Representation — Sep 2022 - Jul 2023
Merit — *University College London , London*
